EDUCATION

University of Washington

Seattle, WA

BS in Human Centered Design & Engineering, Dean's List, Minor in Business Management

June 2027

Select Coursework: User Research Methods, Visual Communication, Interactive Systems Design and Technology, Computer Programming, Data Science

EXPERIENCE

Superpowr.ai | Product Design & Development Intern

Jun 2026 – Sep 2026

- Lead the end-to-end **redesign** of an **AI-powered** career-discovery web platform
- Design **information architecture**, user flows, wireframes, **high-fidelity interfaces**, and motion concepts
- Ship approved **Figma** designs as **production-ready** front-end components with leadership
- Translate user needs and business goals into a cohesive, **scroll-driven** product experience

Eventully | Founder, Product Designer & Developer

Jun 2024 – Present

- Founded and launched a campus platform connecting UW students with **1,231** organizations in **18** categories
- Conducted **user interviews** and **usability tests** shaping onboarding, **AI search**, discovery, and RSVPs
- Built a responsive **Figma design system**; shipped components with **Flask** and **Tailwind CSS**
- Led the **full product lifecycle** from research and IA through deployment and iteration
- Shipped **AI-powered** recommendation and discovery features, improving event visibility

University of Washington | UX Research Assistant

Mar 2025 – Aug 2025

- Synthesized findings from **100+** studies on mental health and resilience in high-performance aviation environments
- Translated research into **data visualizations** for a **peer-reviewed publication**
- Framed insights into actionable **product and policy** recommendations

Pathways Bloodworks | Data & UX Research Intern

Jun 2024 – Sep 2024

- Mapped the **donor journey**; designed dashboards exposing retention drop-off points
- Drove segmentation analysis in **Python** and **SQL**, supporting campaigns tied to a **35%** increase in donor turnout
- Collaborated with **cross-functional** teams on testing, iteration, and performance analysis

PROJECTS

ArtisanCrafts | IBM UX Design Capstone — Figma, User Research

Spring 2026

- Designed a responsive marketplace: **research**, personas, IA, **hi-fi prototypes**
- Applied **competitive analysis** and **journey mapping** across the full UX process

PainSights | Product Design, Clinical AI — FigBuild 2026

Mar 2026

- Designed a **hi-fi clinical dashboard** for reporting pain in **nonverbal patients**
- Built **high-fidelity Figma prototypes**; presented the concept at **FigBuild 2026**

SKILLS AND CERTIFICATIONS

Design: UI/UX Design, Product Design, Interaction Design, User-Centered Design, Design Thinking, HCI, User Research, Usability Testing, Information Architecture, Design Systems, Prototyping, Accessibility (WCAG), Figma, Adobe Creative Suite

Development: HTML/CSS, JavaScript, TypeScript, React, Tailwind CSS, Flask, Python, SQL, Git

AI Tools: Claude (Claude Design, Claude Code), Cursor, Figma Make, v0, AI-assisted prototyping & workflows

Certifications: IBM UX Design Capstone, Google UX Design Certificate, AWS Academy Cloud Foundations, PMI Project Leadership
